

THE TERRORISTS ATTACKS REVEALED IN THE U.S. CHART

by
JAN WARREN ALLEN

The events of September 11th, which changed our lives forever, were definitely indicated in the U.S. chart for the Articles of Confederation. (chart 1) Insert here.

chart 1

The natal Sun at 23Scorpio46 in the 9th house forms a T-square to the ascendant and descendant at 22 degrees and 43 minutes of Aquarius and Leo, with both natal and progressed Jupiter near the 7th house cusp. To backtrack a little, as transiting Uranus (electricity) was coming down to the ascendant to trigger this chart's Solar T-square, we went through the power crisis, and the U.S. plane crash incident in China, which became a tense situation for a while.

The last time this explosive planet was at 23 degrees of Aquarius (83 years ago) and triggered this T-square was when we declared war against Germany, on April 6th, 1917, which brought us into World War 1. So slow moving explosive Uranus set the stage for what was yet to come, and was one component in the whole drama.

What we see next is that progressed U.S. Mars had moved up to 29Gemini17 to conjoin the progressed north node at 29Gemini20 (within 3 minutes of arc), both conjunct the 5th house cusp at 29Gemini49. This goes on to square natal U.S. Neptune at 28Virgo43. So when the transiting Moon on September 11th at 8:45am in New York came up to 28Gemini04 and triggered the square into operation, the attacks began.

The keywords are very telling in describing what happened. Mars rules attacks, warfare, sharp objects such as knives, massacres, iron and steel workers, firemen, policemen, and the military services.

On a mundane level the 5th house is linked with the national economy, as it rules speculation, stock brokering, stock exchanges, sporting events, sports arenas and stadiums, the entertainment industry, and children. It also is linked with public happiness or sorrow, and children who lost parents. One brokerage firm, Cantor and Fitzgerald lost 700 people alone. All of the professional sporting events were canceled over the next weekend, as well as the Miss America Pageant parade, the T.V. Emmy awards show, and some other scheduled new shows. The New York theatre district went into a tailspin for a while. And of course, countless children did lose their parents. Another reference to the children of the nation is that instead of clamoring for the previous action figures kids have wanted in the past, they are now asking for ones of their new found heroes-the policemen and fireman- which are projected to be the big sellers for Christmas.

The twin sign of Gemini, ruling communications and transportation brought in the duality, such as the four hijacked planes involved in the attack of Washington and New York, and also the "twin" towers of the WTC. Another subtle tie-in was that right after the planes hit the towers, people reported that they not only saw people flying out of the upper floor windows, but a lot of the debris was tons of paper flying out all over the area!

The next important scenario began to unfold when the Moon got to the other side of the square and conjoined Neptune on October 1st. This was when the first Anthrax victims were experiencing mysterious health symptoms. Robert Stevens was hospitalized then, but died on October 5th as transiting Venus, (ruler of the 8th house of life death matters) followed the Moon to come up to the later degrees of Virgo to further trigger the aforementioned square. It was then that we came to realize that Anthrax, and bioterrorism was apparently next on the terrorist's lists of evil deeds. Under Neptune's influence, the fear and apprehension continued to mount as people clamored for and began hoarding antibiotics-especially Cipro!

The progressed U.S Confederation's south node in Sagittarius on the 11th house cusp of politics, friends, and the aims and objectives of our nation, of course, received the opposition of the aforementioned Mars conjunct the north node. In Mundane astrology, the 11th house rules institutions needed to govern. This includes the Legislature, Congress, State level governing bodies, advisory groups, enacted legislation, national allies and long-term goals; and the sign Sagittarius rules Arabia, and religious organizations. So not only did our financial institutions (5th house) get devastated, but the very seat of our government, (Washington-11th house) got its share of destruction also. The 11th house is the house of friendships, and President Bush stated very emphatically that there would be no middle ground, and that the other nations of the world were either for us or against us! And as things continued to unfold, Anthrax was even found at Capitol Hill.

There is another important Gemini connection with all of this too. It is the sign that rules both the 4th and 5th house cusps of the U.S. natal chart. Notice that progressed U.S. Mercury at 14 degrees of Gemini, moved up to conjunct natal Uranus at the same degree, with transiting Saturn also at 14 degrees of Gemini; all lined up in the 4th house of our home and foundation. Saturn refers to the mortality of a nation on a mundane level. It also rules public and government buildings, heavy building equipment, building materials, cement, and endings. And of course, transiting Pluto at 12Sagittarius38 was opposing it from the 10th house and did its number on destroying these most famous American buildings, and so many of the people that were in them-shaking us all to our very core. It seems that things can never be the same for us again! The Gemini connection ties into the Anthrax letters being sent to our giant media institutions, and while enroute, infecting some postal employees as well, and taking some of their lives.

There are three birth charts circulating for Osama bin Laden. After looking at them all, the one I felt most connected to was the one for March 10, 1957 in Riyadh, Saudi Arabia, time unknown.(chart 2) Insert here.

Instead of using a noon chart, I tried rectifying it, and chose the time of 10:37AM, as it blends in with other charts so perfectly. This puts his Mercury, Venus and Sun in Pisces, the sign of religion, in the 10th house of his father. His Mercury (his thinking) and is Venus (values) form a T-square to the ascendant and descendant in mental signs, which fits in with the fact that at some point in life his thinking took a radical turn of mind. Notice his natal nodal axis at 23 degrees and 6 minutes of Scorpio and Taurus ties into the natal Sun of the U.S. chart. This in turn reinforced the T-square that transiting Uranus at 21 degrees of Aquarius, tying into our Solar T-square.

Bin Laden's Jupiter at 27Virgo51R is conjunct his 5th house cusp at 28Virgo28 which conjoins the U.S. Neptune at 28Virgo43. So his natal Moon at 29Gemini55 not only squares his own Jupiter, but the U.S Neptune which squares the progressed U.S. Mars at 29Gemini17, the progressed U.S. north node and the 5th house cusp at that same degree, which we have already looked, and keep coming back to, as well.

George Bush was born July 6, 1946-at 7:26AM- New Haven, Connecticut. (chart 3) Insert here.

Depression back in 1931. As a result, Uranus (airplanes) afflicting the U.S. Solar T- square from the opposite direction threw the whole airline industry into disarray.

Bin Laden's progressed Venus (money) at 5Taurus42 is near the 12th house cusp, but still in the 11th and opposes his Neptune near the 6th house cusp. This perhaps indicates that his hidden stash of money to finance his reign of terror won't be so accessible to him anymore. Friends might desert him now, as many are doing in the dreaded Taliban army. (chart 5) Insert here.

chart 5

On September 11th, Osama's Moon had come up to 23Aquarius01 and formed a T-square to the nodes in the chart at 23 Taurus and Scorpio. Where have we seen that picture before? Of course where we started out- in the U.S. natal Solar T-square we have already examined. So it seems that the dye was cast at this time in our history for him to push his luck and make his move!

At the time of the first airplane crash, transiting Mercury was at 14Libra17 and conjunct the ascendant of the event chart for 8:45am in New York. It is interesting then that we started our counter attack in Afghanistan on October 7th as the transiting Sun came up to 14 degrees of Libra and was trining transiting Saturn at 14♍. This would seem to denote that this whole thing will take time, but we will be victorious in the end. An important day then was October 22nd when transiting Mercury turned direct at 14 Libra. As it stationed at that degree though, it formed a T-square to the transiting Moon in Capricorn and transiting Jupiter at 15 degrees of Cancer. The authorities realized then that the Anthrax problem had taken a more serious turn. More postal workers had come into contact with the deadly bacteria, and new procedures were then put into place concerning the handling of the mail and the equipment used in the process. It then became known that a deceased postal worker had unknowingly died of Anthrax.

At the time of this writing, I am looking at October 28th when the Moon will come to the late degrees of Pisces again and trigger the progressed U.S. Mars - Neptune square once again. If the terrorists are planning to unleash more of their evil deeds on us then, I hope that our waterways will be well protected, or anything else that is Neptune ruled.

Osama's Solar return chart is interesting in that the nodal axis is at 12 degrees of Cancer and Capricorn and ties into the U.S. natal Mars at 12Capricorn23. The 16 degrees and 34 minutes of Capricorn and Cancer on the 1st and 7th house cusps draws in George Bush's natal Moon at 16Libra42, as well as his natal Jupiter at 18Libra09. When you add Osama's Solar return's retrograde Venus at 17Aries43 in the 3rd house it all goes on to form a cardinal grand cross. Osama will find that he was way wrong in his thinking—that he could break our spirit. And what he hoped to accomplish in his barbaric attacks will definitely not happen. This 3rd house accent also tells us that he certainly will be on the move as well. (chart 6) Insert here.

Notice that Mercury and Uranus are conjunct at 22 degrees of Aquarius in his 1st house, again which certainly tie into the U. S. ascendant and descendant and that all too familiar U.S. Solar T-square.

Getting back to his natal planets, however, we see that Bin Laden's natal Saturn at 14Sagittarius09 opposes the U.S. line up of planets at 14 Gemini in our 4th house we have also already looked at. That is, natal Uranus at 14 degrees of Gemini, progressed Mercury and transiting Saturn also at that same degree. So an important day might be on November 11th when transiting Pluto conjoins bin Laden's natal Saturn at 14Sagittarius 09 and opposes all of our planets lined up at 14 degrees of Gemini. What might this powerful planetary line-up bring? Hopefully, the end for him!

All of the nodal connections we have seen between these charts suggest to me that this clash between Islamic forces and the West is a most karmic situation, and is what Pluto in Sagittarius demands that we deal with. Perhaps in order to be able to enter the Age of Aquarius, we have to get past all of the Piscean religious hang-ups that are still so evident and destructive in many parts of the world yet. But that means dealing with poverty, ignorance, and a lack of human rights that are part of the equation, which could take a long time.

A Solar return chart for the U.S. chart for 2000-2001 also ties into what happened. (chart 7) Insert here.

chart 7

Notice that the Sun in the chart is just a degree shy of the 8th house cusp (life and death matters). Mercury at 4Scorpio35 in the 7th house of enemies squares Neptune at 4♊04 in the 11th. The Moon at 16Cancer47 which is exactly conjunct George Bush's natal Moon by 4 minutes. Furthermore the nodes in the Solar return at 18Cancer08 and Capricorn not only square the ascendant and descendant of that chart, but tie into Bush's natal Jupiter at 18Libra09.

Osama's progressed chart is also revealing, as when we relocate his natal chart to Kabul first, then progress it on from there, 16 degrees of Gemini and Sagittarius come up on the natal ascendant and descendant. These are the degrees of George Bush's progressed nodes, and the same degree of the progressed U.S. Uranus-at 16Gemini41 conjoining the progressed 9th house cusp at 16Gemini40. (chart 8)

chart 8

Notice what degrees are on the 5th and 11th house cusp- 23 degrees of Aquarius and Leo; degrees, which has been so important in this whole scenario! Another interesting correlation is that the 17Aries50 on the 7th house cusp has Osama's Solar return retrograde Venus sitting right on it.

Looking out in time in terms of how long this situation will take to get resolved, we might get a clue in looking at the movement of progressed Mars in the U.S. chart. Since the attack was so tied into its position, it could take a few years to resolve. That is, it will take until June 3rd, 2003 before it moves on into Cancer, where by then, transiting Saturn will catch up with it and might be the catalyst to end this whole horrendous episode in our history.

On the way to that point however, next May 25th Saturn at 16Gemini31 opposes Pluto exactly. Remember this is the position of progressed U.S. Uranus in the U.S. chart. Again this refers to the 4th house of our home and foundation. The ominous thing about that number is that 16 degrees of Gemini and Sagittarius is where George Bush's progressed nodes are; a rather chilling thought! So let's just hope and pray that the security around him is enough to keep him safe and out of harm's way about then.
