LectureHall.txt

Ena> Hello Kathy!
Kathy Panzella> Is Kay going to lecture here?
Ena> Hi Bill!!
Ena> Yes, she is!
Bill Evanochko> Hi Ena.
Bill Evanochko> Hello to everyone else
Ena> How are you Bill...good to see you both!
Kathy Panzella> Hello all, I'm interested in markets & eclipses.
Ena> Good Kathy...Kaye's very knowledgeable!
Bill Evanochko> Very Good. Am over the Flu and finished Astro104 and passed.
What more could I ask for.
Ena> :-)
Kathy Panzella> astro 104-intro courrse?
Ena> It's certification preparation, Kathy...I'm not sure "intro" could be
adequately applied in its description.
Bill Evanochko> Yes.
Ena> Hi Susan!
Bill Evanochko> Hi Susan.
Susan> Hi, y'all!
Bill Evanochko> Long time no heard from.
Ena> Bill's bragging about passing 104, Susan! :-)
Kathy Panzella> I've studied Astrology for over 20 yrs-glad computers are
finally here. Used to take hours to do a chart!
Ena> Yes, I started studying astrology in 1968, Kathy, doing charts,
etc...finally started classes in 1979 and started on my certification quest.
Bill Evanochko> Not bragging just pleased.
Susan> He did good work!
Kathy Panzella> Any of you trade stocks?
Bill Evanochko> not yet, just mutuals for now.
Susan> No...not yet...on the stock ?
Ena> Kaye should be here shortly...Just spoke with her over the phone.
Ena> She's having a bit of a problem getting logged on! :-\
Bill Evanochko> Ena, will there be a transcript from yesterdays seminar?
Ena> Yes, Bill...I hope to have it up before the day's over.
Bill Evanochko> Cool.
Ena> But by tomorrow, for sure.
Ena> Hi Kaye!
Susan> Did you get a big crowd for last night's lecture?
Bill Evanochko> Hi Kaye.
Susan> Hi, Kaye!
kaye> sorry I'm late
kaye> where are all of you currently located
kaye> I'm in Dallas Texas
Bill Evanochko> Bill, Sudbury Canada
Ena> I wasn't here last night, Susan...Rob and Lisa were here and we ate late in
the evening.
Susan> Georgia
Kathy Panzella> Its amazing- I lost \$\$ last month- read Meridian`s column in
Astrology mag the month before & FORGOT about it. The market dropped.Hi, Kaye.
Was discussing recent mkt. drop
Kathy Panzella> Im in Atlanta
Ena> Oh, nice city, Kathy!

Susan> My favorite place to visit! I'm in the boonies...about 3 hours from Atlanta.

kaye> The NASDAQ dropped because Saturn was exactly conjunct its natal Saturn during that week.

kaye> As soon as Jupiter came through it went up.

Kathy Panzella> Met you at UAC & glad to have your book but need advice on eclipses- Last solar eclipse hurt me financially!!

kaye> Kathy what house was it in

kaye> The NASDAQ drop shows what Jupiter and Saturn can do

Kathy Panzella> March 6 eclipse , sun & moon at 15 Pisces in my 10 th, intercepted

kaye> Saturn quite often means the financial structure of the entity

Kathy Panzella> also, conjunct my north node

kaye> In a company, it is the CFO

kaye> Kathy your eclipse to the North Node is an example we need to look at...

kaye> First of all it indicates that you need to change something about your career -- 10th house.

kaye> If you change, things get better...

Kathy Panzella> You may be right about the career!! Trading stocks is stressful & I don't always make \$\$!!so I should look at NASD chart & aspects to it rather than my natal chart?

kaye> This is what I try to teach in Financial astrology get set for a long bunch of sentences:

kaye> You will notice that although the market dropped precipitously, some stocks did not drop as much as others.

kaye> If you were invested in certain stocks -- say Oracle -- you would have made up the loss by now. The reason is that Oracle has a very strong chart for this period of time.

kaye> Microsoft has a rather weak chart at the moment, but it will strengthen as Jupiter moves into Gemini.

kaye> My version of Financial Astrology assumes that you are willing to hang onto a stock for over a year.

Kathy Panzella> I have Bill Meridian's book. I seem to be buying too far out (2 months ahead of Jup transit) -maybe 2 wks is better- I've been daytrading & got a big margin call. I gambled & lost!

kaye> That happens. And Bill's book seems like you can day trade, but it doesn't really work that way.

Kathy Panzella> For July eclipses, look to NASDAC chart?

kaye> Our stock club was all bent out of shape last month; this month they will be happier. But they were smart enough not to sell.

kaye> No Kathy you look at each individual company you wish to buy...

kaye> both their incorporation chart and their IPO chart...

Kathy Panzella> The july 1 eclipse hits my uranus, 13 cancer, conj my 2nd house cusp. Stay out or in market? In & use stops?

kaye> that is what you look for first

Kathy Panzella> ok

Bill Evanochko> What is an IPO chart

kaye> Your chart could make money.

kaye> The IPO chart is the date the company first trades its stock on an exchange.

Bill Evanochko> O.K. Do you find both dates on a prospectus?

kaye> Bill Meridian's book has charts for first trades or IPO's

Bill Evanochko> Do we worry about the ascendant?

kaye> Bill, sometimes you can. You can also write and ask. The ascendant

kaye> is either 9:30 or 10:00 depending on what year the stock came onto the market.

Bill Evanochko> Good to know.

kaye> Thus when the market opens is usually when it is traded
Bill Evanochko> That's for the IPO, but what about the incorporation chart? Any hope there?
kaye> I use Bill Meridians book to scan what company I might be interested in buying
kaye> I do not buy or sell more than 10 times per year
Kathy Panzella> Thanks. I`m just curious about eclipses, since I got recently hammered! Meridian predicted mkt drop in Dell Horoscope & I had read & forgotten about. Did you also think the drop would happen? You said "the exchanges are overwhelmed" And "volatile markets" for July1.
kaye> Yes the exchanges are overwhelmed and an eclipse usually predicts a drop in the markets during the week following so that you can use them as a buying opportunity...
kaye> however, not every stock will drop.
Kathy Panzella> Exchanges overwhelmed was your comment for Mar 6 & jup sq. Nep on Mar 16
kaye> In the chart of the NYSE, Mercury is at 23 degrees Taurus.
kaye> The Jupiter/Saturn conjunction will add to the volatility.
kaye> Overwhelmed means record setting shares traded.
kaye> If you read various commentary on the exchanges, you will also read about how their equipment is under stress.
Bill Evanochko> Kaye, A. Adams subscribed to the idea that playing the stocks was basically gambling. You need a good natal chart to succeed in the markets. Do you subscribe to the same idea..
Bill Evanochko> And if so, what would you look for in this type of chart?
kaye> Bill it helps to have Neptune in the Fifth...
Bill Evanochko> How about Jupiter in the fifth?
Kathy Panzella> Plan on drop after solar or lunar eclipse? NASD Saturn is 16 Taurus!! Drop Tomorrow & Wed??? I have natal Uranus on my 2nd house cusp!
kaye> also, you need Jupiter and Saturn in good aspects.
kaye> Kathy solar eclipse?
kaye> No Kathy, Saturn is 19 Taurus...
kaye> Jupiter is 16 Taurus
kaye> Thus The market will go up gradually because it is conjunct Saturn.
kaye> Market, I mean NASDAQ.
Susan> What is the birth chart info for NASDAQ?
kaye> For a person, Jupiter conjunct Saturn will discipline your finances; thus you might save the money to buy a computer instead of charging it on your credit card.
Kathy Panzella> I have Neptune in my 5th! Maybe I can make up my losses!! Thanks for the shot of HOPE!!!My Jupiter in Aires (10th)squares my Uranus (2nd)& Neptune (5th)
kaye> Kathy, you should sign up for my class.
kaye> You might as well gamble with intelligence!
Kathy Panzella> Trying to sell some land-possible closing next month. Can you suggest some stocks-your favorites- where I can park my money?
kaye> I bumped myself off...
kaye> accidentally hit the mouse!
kaye> Back to the Jupiter Saturn conjunction on the NYSE Mercury...
kaye> Jupiter indicates sales in a company.
kaye> Saturn indicates the accounting department.
kaye> In a natal chart, the closer they are together the better you are at managing both.
kaye> On Mercury, the NYSE might finally get its ability to communicate with its volume.
kaye> It has been a bigger problem this year than the newspapers tell about

Kathy Panzella> which nyse chart are you using? I have Sun conj Saturn in my 5th
opposing Jupiter in my 10th.
Kathy Panzella> sorry-10th
kaye> Jupiter then goes on to conjunct the Sun of the Tokyo exchange and then
the NYSE. The markets will go up.
kaye> If you invest in say a basket of Dow stocks, you will do very well in
June.
kaye> Sell right before the eclipse.
kaye> That is all for Kathy's benefit.
kaye> Bill how are you doing with this?
Bill Evanochko> Good, so far it makes perfect sense.
Susan> The July 1st eclipse will opp Bill's natal Sun at 10 Cap in the 4th.
kaye> The reason I wanted to do this lecture was to explain how these two
planets affect the markets.
kaye> They are very different energies.
Kathy Panzella> thanks. hope I get \$\$\$ in June to invest before July1! which NY
chart do you use & where to find Jap chart?
kaye> I have recently had a bunch of clients with 1940 as a birthdate...
kaye> I use Lavoies chart for NYSE.
Kathy Panzella> thanks
kaye> and Jap is may16 1949
Kathy Panzella> what time?
kaye> This transit of Saturn ahead of Jupiter is causing all the 1940 clients to
worry about their retirement funds, since they have natal Saturn in Taurus.
kaye> They are worried. I guess that Jupiter will not bail them out.
Kathy Panzella> what time for jap chart?
kaye> Japan is 9:00 Tokyo
kaye> The transit of Saturn on my husband's natal Saturn and none of his horses
could do better than 3rd
kaye> Oh we own horses
Kathy Panzella> Thanks!My point of fortune is 15 Taurus. I hope Jupiter bails me
out! I am considering work in a charitable/ foundation/fundraising area.
kaye> Anyway, finally Jupiter helped out and on March 4, won their races.
kaye> Kathy, that can be interesting and a good way to add on karma points.
Kathy Panzella> Have you found that using Jupiter transits works- like over 75%
of the time?
kaye> With Neptune in the 5th you need to add some karma points once in a while.
kaye> I would go broke if I only looked at Jupiter transits. Take a look at the
chart for Katy industries.
kaye> In financial astrology, you have to look at the eclipses...FIRST!
kaye> Oh by the way, Bill...
Bill Evanochko> Kaye, don't certain stocks fit better with your natal chart?
Kathy Panzella> What symbol?
kaye> if you buy mutual funds, their inception date is shown in the morning
star.
kaye> Kathy: KT
Bill Evanochko> I don't know what you mean by "morning star"?
kaye> Mutual funds should be friendly to your natal chart, Bill.
Bill Evanochko> So far, they have been.
kaye> You keep them a long time usually
Bill Evanochko> yes.
kaye> Again, I talk about them in my classes.
Bill Evanochko> Some, a couple of years, others much longer.
Kathy Panzella> You said to look at the eclipses first. So look at stocks with
the eclipse Sun & moon aspecting the co. Jupiter?

Bill Evanochko> I certainly want to take your course, but I'm not sure I'm far enough with the information to understand everything. That's my Capricorn sun talking.

Bill Evanochko> I want to understand the transits, which I believe are coming in the Astro201 course.

kaye> Bill, we start out with the easiest ideas first.

Bill Evanochko> O.K. I will save my pennies and see you in September!!

kaye> ok I'll wait for you to finish 201

Kathy Panzella> Can you answer my question on eclipses?When will your fin.astr. class be offered?

kaye> I have used astrology to buy sell and trade in every area of my life.

kaye> For example, I clean the house when the moon is void of course.

kaye> Sometimes I'm lucky and there will be a whole month of Moon voids during the middle of the night!

Susan> LOL

Kathy Panzella> look for eclipse sun & moon on corporations Jupiter? what stocks do you like now?

kaye> Kathy, I write all over Bill M.'s book.

kaye> I don't have any specific ideas for the short term.

kaye> I am trying to find stocks that are involved in Fuel Cells.

kaye> This is my reasoning:

kaye> the recreational vehicle buffs have a magazine and

kaye> there was an article about fuel cells. It told how handy they can be for Rvers.

Kathy Panzella> you mentioned looking at eclipses firrst-about 15 min ago-what did you mean? My husband`s been looking @ Ballard & others- all got hit but Ballard up recently.

kaye> Eclipse to sun is good, according to Bill M.

kaye> An eclipse to Saturn is awful.

kaye> In the book, his articles explain...

Kathy Panzella> looka2 pg 248-Battery Tech-Jupiter Taurus is trans 2nd house opposing Jup & Pluto(next) in 8th-familiar w/this stock?

Kathy Panzella> thats Jupiter IN Taurus

Kathy Panzella> wouldn`t this do well with trans Jupiter in 2nd opposing natal Pluto (conjunct nnode)in 8th?

kaye> Battery Tech will take till September to get some momentum.

kaye> Jupiter will then trine its Sun and it could be on a low now.

Kathy Panzella> good point

kaye> I only have one phone line so I can't look it up on AOL, but if it starts up it could be a good company. Read about it first, then see what their new product lines will be.

Kathy Panzella> OK, when is your fin ast class?

Ena> It starts next week, doesn't it Kaye?

kaye> Jupiter will conjunct its moon in a year and that might be good.

Ena> Kaye when does your class start?

kaye> Yes, next week. When we are finished look at the site.

kaye> Yes, we will have an afternoon class on Tues.

Kathy Panzella> will be out of town may 10-24.is the class every month? or can I take lessons whenever I want?

kaye> We meet once a week for 14 weeks.

Kathy Panzella> are sessions like this-chat rooms?

kaye> You can get and read the class transcript and find out what you missed.

kaye> It really is fun!

kaye> The Tuesday afternoon class will have a fellow from Scotland and

kaye> a young lady from Denmark.

kaye> Thus, very interesting perspectives!

Kathy Panzella> like Q&A?chat rooms?

kaye> The class works just like this one did...
Kathy Panzella> I see. How to sign up?
Ena> They're like classes, Kathy.
Bill Evanochko> Kaye, the July 1st eclipse at 10' Cancer will oppose my natal Sun at 10 degrees in my 4th house. What would that imply?
Kathy Panzella> what times on Tues?
kaye> You read a lecture and then join the class at the specified time for an hour and half.
Ena> Except there are transcripts that are posted, so if you miss a class, you can get it and keep up.
Ena> ::Ena, looking at the schedule::
Ena> I have on the schedule, Kaye, 1:30 Eastern time...is that correct, Kaye?
kaye> Yes.
kaye> Our Scotsman set the time.
Kathy Panzella> got to go get daughter from preschool! Hate to leave. Hope classes aren't at 2:30 each week, or I'll miss all till June 6. !;30-3 pm would be OK.I'd have to leave early till schools out.
Ena> Bill, are you an evening or day student?
kaye> So he wouldn't be asleep.
Bill Evanochko> I am an evening student. but sometimes I could make a day class?
Kathy Panzella> Bye for now.Pleese email me: panzella@access1.net with enrolling info. Thanks,Kathy
Ena> It's been nice having you here Kathy...
Ena> Thanks for coming by!
kaye> bye
kaye> Any questions Bill?
Bill Evanochko> Kaye, did you see my question about the July 1st eclipse?
kaye> Ask again.
Bill Evanochko> July 1st eclipse at 10' Cancer will square my natal sun in Capricorn at 10 degrees in my 4th house. What would you suggest?
kaye> You know there is very little research on the square.
kaye> What house will the eclipse be in?
Bill Evanochko> No I didn't.
Bill Evanochko> The eclipse will be in my 10th house.
kaye> Oh that means you will focus on your career and probably add to your hobbies in a way that will turn that hobby into a new career.
Bill Evanochko> Also very close to a conjunction to my M.C.
Susan> The eclipse will oppose his natal Sun, not square it!
kaye> It will eventually conjunct it in 2001
Bill Evanochko> The only hobby that I have that much interest in is Astrology.
kaye> You might add this study in a way that will amaze you
Bill Evanochko> Your reading of that aspect is very much like the magi books see it
kaye> I say amaze, because Capricorns are initiators and good at business.
Bill Evanochko> That's the only negative aspects? The ones involving Saturn?
Bill Evanochko> I guess that is that Cardinal quality
kaye> Saturn is trine now
Bill Evanochko> I have been thinking of retiring, but that isn't for another 3.5 years.
kaye> Taurus and Capricorn are earth signs very practical.
Bill Evanochko> And my goal was to become an Astrologer focusing in Financial Astrology.
kaye> We all start at this profession very slowly.
kaye> I've been slowly focusing on financial astrology since 1978.
kaye> I had to learn natal first.

Bill Evanochko> I have been interested in Astrology since about 1982. But with no teachers in this part of the country. The Internet was my saviour. Also Ena, Cheryl, Susan.

kaye> But my Taurus planets think only of Money!

Bill Evanochko> Money is good. One of the problems with us chasing away money is that we always look at it as bad.

kaye> And Ena suggesting I teach financial has forced me to systematize the mish mash of learning I have gained from attending every astro-economics conference.

kaye> This is a new study and there is a lot of room for Financial Astrologers.

Bill Evanochko> I would love to attend one of those some time soon.

Bill Evanochko> When are you going to be in Canada, Toronto perhaps?

kaye> The next one is in Australia, so you'll have to save your mileage and money.

Bill Evanochko> Been there, what a great country.

kaye> I'm saving mine. I think it will be Feb 2001.

Bill Evanochko> I certainly enjoyed the 11 days we were there. But you need about 6 months to see it all.

Bill Evanochko> Kaye, do you use Chiron in Financial astrology?

kaye> I was there a week and can't wait to go back.

kaye> I have a pretty good stash of miles to work with.

kaye> No Chirons!

Bill Evanochko> O.K. One more question before I let you go.

kaye> maybe when Neptune goes into Pisces and medical stocks are important.

kaye> Medical stocks are at the same point as computers were 12 years ago.

kaye> Neptune means big money in financial astrology.

kaye> I think we are out of time.

Bill Evanochko> I have Mercury and my part of Fortune in my Fifth house. Mercury is Quincunx to Saturn in the 12th. Do you think communications stocks would be something I should look at?

kaye> Good idea Bill!

kaye> Time to sign off though.

Bill Evanochko> Cool. I will see you in September.

kaye> See ya in class one of these days soon!

Bill Evanochko> Have a great day.

kaye> bye

Susan> Thanks Kaye! Bye!
